Subject: [External] Dominion price increase

I understand that the cost of producing electricity has gone up along with everything else. Let's face it this is due to stupid, shortsighted governmental incompetence. You know what costs are doing, please do not simply go along with what /dominion is asking for an increase. There must be a figure less than theirs that you can honestly allow. Please do not add to the disaster looming on the horizon for the average citizen and those on fixed income.

Thank you for your attention,
Carol B. White
